DSH Junior Tournament 2023-2024

The Digital Schoolhouse junior tournament is an immersive careers experience for pupils aged 8 to 11 years. With project-based learning that allows aspiring learners to fulfil real job roles within the video games industry.

Resources are mapped to the UK primary curriculum for Computing, English, Maths, DT and PSHE, ensuring that these unique sessions can easily be delivered in classrooms.

LBBD Libraries has partnered up with DSH to deliver these meaningful sessions and make it accessible for all children in the Local Community.
